Opis produktu

5 toys in one for shared climaxes!

The RC Multi Function Couple's Vibrator from Couples Choice supports the penis and pleasures couples during sex with deep vibrations. No less than 5 toys are combined in this multi-talent: cock and ball ring, couple's vibrator, clitoral vibrator and vibrating butt plug.

10 different vibration modes can be intensely felt by both partners. These can be conveniently controlled with the practical remote control. Range 10 metres. The 3 quiet motors can also be controlled separately directly on the toy. Also perfect for fun in the bath and shower as it is waterproof!

It's very easy to use: the cock and ball ring are slipped on so that the flat couples vibrator nestles on top of the penis. This allows him to spoil his partner with a thicker penis during sex and feel a wonderful tightness himself. The cock ring also supports his erection for a long time thanks to the blood congestion effect. And the ball ring provides a firm, secure hold and exciting traction. The gently nubbed clitoral vibrator pampers her hotspot during sex. The vibrating plug is inserted anally, either by the wearer or for additional anal stimulation of the partner.

Made from silky soft silicone all round, the stretchy rings are easy to slip on and the couples vibrator and vibro butt plug are easy to insert. The lightweight vibrating combination adapts perfectly to the body and flexibly follows every movement.

Rechargeable – including USB charging cable and battery (CR2032) for the remote control.

Total length 34.8 cm.

Cock ring – 3.5 cm, ball ring – 5 cm, both stretchable.
