Opis produktu

...the main things are hidden from view! Is there really a dress that offers your partner cheeky glimpses of your body but still covers the main parts! Yes, that's exactly what this super sexy, sleeveless mini dress can do. It is made out of black wet look and its tight fit emphasises your seductive curves, while the fancy design at the front will take your partner's breath away. There are transparent powernet inserts at the front that provide a hot and cheeky view. The really thrilling parts of your body are covered up by matte look material which breaks up the diagonal strips of transparent material. The wet look material cleverly hides the nipples and intimate area - this means that your partner's fantasy can run wild. Another exciting detail is the numerous silver-coloured rings on the black borders that go around the transparent material. 90% polyester, 10% spandex net 90% polyamide, 10% spandex.
