Opis produktu

This pleasure-packed vibe is crafted from BioTouch™, a 100% soft natural rubber responsibly harvested from rubber trees and the bullet is made of BioFeel™, a plant-based bioplastic that makes this product more eco friendly and sustainable. Enjoy the powerful 10 vibrating modes consisting of 5 speeds and 5 patterns delivered through the Rumble Tech™ motor and controlled with an easy push button. The curved and ribbed tip is perfect for pinpointed external stimulation and the angled, ergonomic body can easily be pressed against the body for optimal pleasure. Eco Love also has a heart-shaped fin you can easily slide your fingers into for a comfortable grip and more accessibility. IPX7 submersible waterproof and magnetic USB rechargeable, Eco Love is ready to go the distance. Ultrasilk® satin smooth and beautiful to behold, Eco Love is the perfect way to treat yourself!Finger fins nestles between your fingersDampens vibrations to your handMade of Biotouch. Sustainable. BioFeel also uses less energy and creates fewer greenhouse gas emission than any other sex toy material on the market. This material is the perfect choice for a vibrator since it is nonporous, making it bodysafe and easy to clean. It looks and plays like any hard-plastic toy. Gaia is smooth to the touch and transfers vibration beautifully. How to RecycleWhen ready to dispose of a Gaia toy, take it to your local recycling center. Gaia's bioplastic will biodegrade within 47-90 days in a commercial composting facility. We CareCaring for the earth is a priority for man
