Opis produktu

Glamour Glass is a glass toy range from Dream Toys with mesmerizing soap bubble colours. The range features dildos, wands and plugs and this wonderful dildo. The elegant dildo has a curly tail and a tapered tip. With its smooth shape and total length of 18 cm it's a wonderful toy that can be used in many ways for external and internal stimulation. Its diameter of 3 cm makes it suitable to be used for the vagina as well as the anus. Elegant curved dildo Made of high borosilicate glass Phthalate free, latex free Length 18 cm Diameter 3 cm The beautiful and smooth shiny looks are what all Glamour Glass toys have in common. Plus that special feel that glass provides and the possibilities for temperature play. All great properties of the Glamour Glass toys from Dream Toys, the most extensive brand of Tonga BV. Truly versatile and truly thrilling toys, with a glamorous look! Tonga combined the great properties of borosilicate glass with the glamorous looks of a multicoloured, shiny and smooth surface, with stimulating shapes and with the stylish packaging of this label, which created real eye-catchers for any store, with lots of great advantages to communicate to your customers. Borosilicate glass Each of the Glamour Glass toys is made of Borosilicate glass which is very strong, non-porous, hygienic and safe for the body. Glass is great for temperature play. Storing them in the fridge or putting them in hot water for a while makes them tingling cold or excitingly warm. Borosilicate glass is also called Hard Glass. It is made of silica and boron trioxide and much more resistant to thermal shock than common glass. Not only is borosilicate glass stronger, it is lighter than common glass too. This makes it very suitable for lots of products. Virtually all modern laboratory glassware is made of borosilicate glass for its chemical and thermal resistance and it is widely used in medical devices. That's why it's perfectly safe to use glass toys for internal stimulation (with lu
