Opis produktu

MORE penis through the natural power of water!

Transparent water-powered penis pump Hydromax8 from Bathmate for all men who want a permanent increase in penis size, erection quality and stamina. Easy to use with water for gentle but extremely effective hydro-vacuum training. Relax in the shower or bath!

The water in the penis pump creates a strong and even suction force around the penis so that the tissue can expand completely and evenly. With regular use, lasting results can be seen and experienced.

Transparent cylinder with a measuring scale. The soft, sealing cuff ensures a high level of comfort at the base of the penis and balls during training. The Superflow valve system allows the hydropump to be filled with water with one hand.

Ideal for (erect) penis lengths 15-20 cm.

PC, TPE.
