Opis produktu

Do you like tight, wet and realistic masturbating action? Then you will love the Super Wet Travel Beaver from the Bangers collection by Hidden Desire! This hand-held masturbator is made of ultra-lifelike Waterskin: a unique TPR material that feels super smooth and slippery when you add water. Featuring a realistic vaginal orifice, luscious female folds and a sensational inner canal, the compact Super Wet Travel Beaver is ready for all-natural pleasure on the go, whenever and wherever you desire! (Our experts say this quality toy might even feel better than the real thing, just don't tell your wife or girlfriend that, or you might get into some naughty trouble...)
