Opis produktu

The rich, thick texture of MediAx heated masturbation cream is revolutionary. It gradually warms up on contact with body heat to reach perfect viscosity, without ever leaking. Its long-lasting action means that MediAx does not dry out, and a single application is enough. Using MediAx during masturbation reduces friction and provides much better sensations than a simple lubricant. Its heating action provides a gentle sensation of warmth on your skin. Its neutral pH leaves the skin soft and supple. MediAx cleans easily, is not greasy and does not stick. Perfectly suited to frequent masturbation, alone or in pairs, you will soon not be able to do without it! Also available in natural or scented version. 150 ml tube. Not compatible with the use of condoms.
