Opis produktu

Pulls the penis into pleasure!

The Automatic Mega Masturbator Back That Ass Up from PDX Elite has an innovative suction function and vibration. The curvy buttock torso can be penetrated in a doggy-style position or a lying down position. Both of the tight but flexible pleasure tunnels (vagina & anus) have exciting textures inside for an additional and intense massage.

The 2 powerful motors have intense vibrations and a strong, intermittent suction function that will pleasure the entire penis. The 12 vibration modes and 6 automatic varying suction modes can be adjusted with the button on the toy. The modes can be controlled together or separately – depending on the desires and needs!

The torso masturbator is made out of skin-like Fanta Flesh material and looks extremely realistic. The soft and smooth material also adapts quickly to body temperature. The torso weighs over 6 kg, which means that it sits securely on any smooth surface and doesn't slip – making it perfect for hands-free fun.

Rechargeable – includes a USB cable.
