Opis produktu

Discover an entirely new dimension of realistic dildos. Crafted to perfection from innovative liquid silicone, this hyper-realistic, dual-layer dildo feels like the real thing and is Always Upâ„¢. Experience dual-density like never before. Shaftâ€™s proprietary Flexiskinâ„¢ liquid silicone gives this Shaft dildo an irresistibly soft and silky real feel, while the firm silicone core provides enough support for even the most wild rides. Model J, designed to allow deeper penetration, features a classic straight shape without balls and a powerful suction cup that is harness-compatible. Classic straight shape without balls Designed to allow deeper penetration Suction cup Harness compatible Length 7.5 inch / 19 cm Insertable length 6.8 inch / 17,3 cm Diameter 1.51 inch / 3,8 cm Innovative Flexiskinâ„¢ feels just like skin: soft, squeezable, and flexible. This uniquely formulated liquid silicone is not only extremely soft and pleasing to the touch, but also hypo-allergenic and non-porous, so bacteria canâ€™t become trapped in it. This makes Shaft highly realistic and completely safe for the body. Underneath the layer of Flexiskinâ„¢ is a firm silicone core. This allows Shaft to be sturdy and springy. The layers are merged together perfectly and the exceptional quality of the premium materials and manufacturing guarantee durability of the dildo. Another unique feature of Shaft is the naturalistic dual colour of the dildo. The soft head differs in colour from the shaft. Such coloration makes the dildo unbelievably realistic.
